PW 4-H Teen Club Pledging Their Hands to Larger Service

Last night, members of the Prince William 4-H Teen Club volunteered at Boxes of Basics. They packed about a dozen personalized boxes for local youth ages 5-11. Boxes included community donated items of clothing, shoes, dental kits, and books and were wrapped like presents with a personalized, handwritten note from our team of volunteers. The boxes will be distributed through community partners to the children. Our 4-H'ers especially loved writing notes of encouragement and look forward to participating in this community service opportunity again! A HUGE 4-H THANK YOU to Sally Crockett for inviting us to Boxes of Basics.

Dairy Math!
Discover some math facts about dairy cows, dairy farms, and nutrition!

- Dairy cows can weigh **1,500 pounds** when fully grown.
- Cows drink about **35 gallons of water** a day — that's enough to fill a bathtub. And they eat about **50 pounds of food** per day.
- A dairy cow produces more than **6 gallons of milk** each day. That's about **128 glasses of milk!**
- Cows rest on average **12 hours** per day.
- It takes less than **5 minutes** to milk a cow using a milking machine.

CELEBRATE NATIONAL SCHOOL BREAKFAST WEEK!

Happening on March 4-8, National School Breakfast Week celebrates the importance of a nutritious school breakfast in fueling students for success. This week also celebrates the national School Breakfast Program and the many ways it gives kids a great start every day. Dairy plays an important role in starting the day off strong to fuel your days! After all, it has been shown that students who eat breakfast score higher on tests.

[Click here to download a fun "Fuel Up With Breakfast" worksheet](#) to help students learn more about the importance breakfast has in their day. Age group? This worksheet is ideal for 3rd to 5th grade students.

You can also try a different breakfast recipe each day this week, all featuring different dairy products:

- **March 4: Green Eggs and Ham Omelet.** In honor of Dr. Seuss' birthday, Read Across America Week is also happening this week. Celebrate with this protein-filled breakfast. [View the recipe.](#)
- **March 5: Fruity Breakfast Popsicles.** These breakfast popsicles combine yogurt, milk, fresh fruit and granola for a delicious treat that's also colorful to look at. [View the recipe.](#)
- **March 6: Breakfast Pizza with Cheddar Buttermilk Biscuit Crust.** You can't go wrong with breakfast pizza, especially this recipe that adds a cheddar cheese biscuit crust! [View the recipe.](#)
- **March 7: Chocolate Milk Pancakes.** Do your kids love pancakes and chocolate milk? Combine these two kid-friendly favorites into one delicious breakfast! [View the recipe.](#)
- **March 8: Cocoa Mint Smoothie Bowl.** This nutrient-packed delight brings together the irresistible combination of chocolate and mint combined with bananas, milk and more. [View the recipe.](#)

HOW DO DAIRY FARMERS USE MATH?

As with running any business, numbers are top of mind for dairy farmers as they calculate how much feed their herd will need to stay healthy, how many gallons of milk they will provide to school systems, restaurants, and home consumers, how much energy they can save by using technology effectively, and more. In these free Dairy Math lessons, you can challenge your students to solve math problems related to cow care and dairy farm sustainability, and then use USDA MyPlate guidelines for planning healthy meals. [Click here for free lessons.](#) These lessons are ideal for 2nd through 4th grade students.

FARM TO FRIDGE

With so much focus on breakfast, dairy-packed foods, and school nutrition this week, check out this interesting, three-

minute ["From Farm to Fridge" video](#) about dairy foods. Discover how dairy foods get from the cow to your glass, bowl or plate!

VA Dept of Forestry - Camp Woods & Wildlife

PRINCE WILLIAM 4-H BETTYANN BLANTON WOODS & WILDLIFE SCHOLARSHIPS AVAILABLE!

Dates: June 17-21

Location: Holiday Lake 4-H Education Center, Appomattox, VA

Who Should Attend: Virginia youth ages 13-16 who show an interest in natural resources and have good academic standing.

[Click here for more information and to apply.](#) **Applications due April 15th.**

The Virginia Department of Forestry, in cooperation with other natural resource conservation agencies and organizations, has proudly administered Camp Woods and Wildlife (formerly called Holiday Lake Forestry Camp) for more than 70 years. Camp Woods and Wildlife is an academic, structured, residential camp that focuses on field experiences in forestry and other natural resources. This unique camping experience introduces 13-16-year-olds to the challenges, special skills, and knowledge needed for managing the forest resources we use and enjoy every day.

Camp Woods and Wildlife is ideal for students who:

- * wish to explore forestry and wildlife related careers
- * participate in forestry and wildlife judging teams, Envirothon competitions, or ecology clubs
- * want to experience hands-on learning and gain real-world skills in natural resources conservation

Camp Activities

- * Classes are taught mainly outdoors, by natural resource professionals.
- * Courses include: Sustainable Forest Management, Forest Ecology, Mapping, Environmental Protection, Forest Health, Wildlife Management, Tree Identification
- * Other learning experiences include urban forestry and forest products demonstrations; exploratory classes in topics such as forest fire equipment and tactics, wilderness survival, canoeing, and archery; and presentations by conservation police officers, wildlife researchers, and other natural resource professionals.

- * Campers participate in a Lumberjack Field Day with group competition in crosscut sawing, log rolling, and other traditional outdoor skills contests.
- * Recreation and athletics include swimming and volleyball.

PRUNING FRUIT TREES FOR BEGINNERS (King George, VA) - **March 6, 10 AM - 12 PM**

[Click here for more information and to register.](#)

Good pruning technique can increase the potential for quality fruit. Pruning is often neglected either due to a lack of skill or fear that improper pruning could lead to the injury or death of a tree. Pruning reduces overall tree size, improves structural strength, increases fruit production and improves the quality of fruit. Come and join us for this hands-on demonstration on pruning fruit trees for the beginner. Please feel free to bring any pruning tools that you may have to this workshop.

GROWING HERBS FOR THE BEGINNER (Rapidan, VA) - **March 9, 10 AM - 12 PM**

[Click here for more information and to register.](#)

Workshop participants will learn the health benefits of growing herbs and their uses in value-added products and by-products. Sheila Jackson, Minority Veteran Farmers of Piedmont garden coordinator and the Carver Center herb garden developer, will take us through her herb-growing journey. Business owner Kae Walker will discuss how she found success using by-products of herbs.

BASIC BEEKEEPING (Salem, VA) - **March 16, 1-5 PM**

[Click here for more information and to register.](#)

Bee ownership is more than just the sweet taste of honey! Join us for the opportunity to see the inner workings of a beehive. This workshop will give you a basic understanding of what it takes to start your own hive, from site location to queen management, including an overview of what kinds of tools and equipment you need and the knowledge to treat pests and diseases. This workshop will be held near several working hives. The use of perfume, cologne, or scented body lotion is strongly discouraged in order to maintain a calm and docile environment for the bees. Please wear light-colored clothing and closed-toe shoes.
