This exemption is included in Section 2.2-3705.2 (2), (6), (7) and (14) and 2.2-3705.3(7) of the Freedom of Information Act and other laws and rules requiring public access or disclosure. ***The full report contains confidential information, and an overview of the results will be presented in closed session to the Board Audit Committee of Prince William County on March 19, 2024.***

In conjunction with this internal/external network penetration testing we have provided management with recommendations related to the results of the testing performed. The information in the confidential report is intended to assist the County in enhancing its security of technology assets. In order to remain effective, the provisions recommended in the report will need to be continuously maintained and regularly validated through an ongoing network security program.
